

## Creating a Web Site

- Access your U: drive and create folders for your website.
  1. Open **My Computer**
  2. Select Drive **U:**
  3. Open **Public\_html**
  4. Create a folder called **Images** and another folder called **Documents**
- Open Trellian and create your home page.
  1. Go to **Start -> Programs -> Trellian**
  2. Create a new document in Trellian by selecting **File -> New**
  3. Type in your name on the page
  4. Choose **File -> Save As**
  5. Name the file **index.htm**
  6. Save the file in your **U:** Drive in the **Public\_html** folder.
  7. Type in <http://students.etc.s.ipfw.edu/~YourUserName/>

- Remember that everything that you wish to publish to the web (images, documents, html pages), must be saved in the U: drive under the Public\_html folder
